

## PROJECTS

Skill Gap Analyzer – Resume vs Job Requirements

Python | Streamlit | PyPDF | Regex | Pandas

- Built a web app that reads PDF resumes and matches skills against job descriptions using Regex.
- Calculates Skill Match % and highlights missing skills vs matched skills for faster interview prep.
- Deployed publicly using Streamlit Cloud — enabling anyone to analyze skill gaps instantly.

Smart Toronto Traffic Data Dashboard

Python | Pandas | Streamlit | SQL | Plotly

...

We are hiring a Data Analyst with strong experience in Python, Pandas, SQL and Excel.

Power BI dashboard development is required.

Knowledge of AWS, BigQuery, and Tableau is preferred.

Candidate should be familiar with ETL workflows, JSON data parsing, and Data Wrangling.

Statistics and Data Visualization skills are necessary.

Experience with Seaborn or Matplotlib is a plus.
